

SKYDIVING IN INDIA

Please find the details, photos of previous camp, medical form, registration form and rates attached for the skydiving camp. Do let me know if you have any doubts or queries.

The last date of registration for skydiving is 26th March 2012. So hurry!

STATIC LINE SKYDIVING(3 DAYS TRAINING) SOLO JUMP

Static line skydiving is said to be the oldest method of learning how to skydive. This is similar to the way parachuting for military airborne soldiers. They have to jump 3,000 feet high with a cord hooked on a plane that pulls your parachute open. As the student exits the aircraft, the parachute is opened by a static line attached to the aircraft. Unlike tandem skydiving, this requires the student to land on his own. But his descent to the ground is done with the guidance of radio communications.

TANDEM SKYDIVING(1 DAY COURSE) INSTRUCTOR PIGGYBACKING YOU

Tandem skydiving is most popular for beginners. Tandem skydiving refers to a type of skydiving where a beginner or student is connected via a harness to an experienced skydiver. The experienced skydiver or tandem instructor controls the whole jump. The student needs only minimal instruction before making a tandem jump.

Camp No.9 Location: Baramati, Pune (2nd - 4th April)

6	Tandem	40000/-	Including 1. service tax of 10.5 percent 2. working breakfast and lunch for one days
---	--------	---------	---

charges vary from various locations due to following:

1. Transit time of a/c from base to camp
2. Hotel rates
3. Landing charges for an aircraft etc.

You need to be reasonably physically fit and need to get a medical certificate of fitness from a general medical practitioner. You will also be signing an indemnity bond before you jump. You will have to be below 90 kgs in weight and should have no history of high BP, cardiac problems or serious back injuries.

You will be provided certificates after the end of the course.

Instructors are highly experienced instructors and expert jumpers who have trained hundreds of parachute jumpers in the past. The experience

level varies from 500 jumps to over 5000 jumps. IPF also understands and distinguishes between an experienced jumper and an instructor, they are two different things which a lay man gets mixed up with. All training is planned by instructors. Selection of instructors has been made on merit. All IPF instructors have been former **instructors at Paratroopers Training School of the Indian Air Force** at Agra for a decade or more.

We also have Manali Adventure Camp coming up in april (APRIL 21ST – 29TH) for 9 days which includes skiing, trek, white water rafting and paragliding. Do let me know if you are interested.
